EDUCATION

GPA 4.7/5

**BACHELOR COMPUTER
SCIENCE**
KING SAUD UNIVERSITY
2016 - JUNE 2020

I took many important courses such as: Image Processing - Machine Learning - Artificial Intelligence - Human-Computer Interaction - Data Mining - Design & Analysis of Algorithms - Operating Systems.

EXPERIENCE

**KING ABDULAZIZ CITY FOR
SCIENCE AND
TECHNOLOGY**

Summer Trainee at National Center of AI & Big Data Technology,
Worked on developing ChatBot System in Healthcare field. In addition, worked on developing Named Entity Recognition Model.

LANGUAGES & SKILLS

LANGUAGES

Arabic
English

TECHNICAL SKILLS

Java
Python
Matlab
R
C
Java Script
CSS & HTML
MySQL
Arduino

SOFT SKILLS

Team Working
Fast Learner
Leadership

ACCOMPLISHMENTS

- Developing an Automatic Detection of Guns Using Deep Convolutional Neural Network , Graduation Project.
- "Data Science in Python" Course , King Saud University.
- Developing Hand Segmentation Using Deep Learning Model for Arabic Sign Language Recognition
- Developing Logistic Regression Classifier for heart disease detection.
- Conduct Literature Review about "Automatic Image Colorization".
- Developing 'Office Hours Management System' application in Android Studio.
- Academic paper co-author "Superbot a combination of chatbots and videogamebots".
- "Big Data Health Analytics Using R" workshop organization team, AlKhuzama conference center.
